- InDesign
- Premiere Pro

Analysis

- Ansis
- Ladybug
- ArcGIS

Interests

Keen interest in the fields of history, science, psychology and human behaviour, always trying to expand my knowledge in my spare time. I enjoy working out - either in the gym or going for a quick run, and I invest my time and efforts trying to keep myself in a good shape. I enjoy nature from a physical and psychological perspective and I love a good hike whenever I am back in Bulgaria. I enjoy travelling as a way of embracing new cultures and local cuisines.

I am an active learner and I enjoy getting involved into teams, expanding my network and getting new people's perspectives upon various topics. I am always open to challenges in fields outside my comfort zone.
